Zodiacal reformation walks hand in hand with advanced clearing and personal magick. In order to assign a true personality to each and one of our readers we have inspected the zodiac and found 22 zodiacal constellations. Moreover we scanned the eastern horizon with its 16 rising constellation. The issuing system was called the 16/22 astrology system. It incorporates the following power tools for interior design:

- ★ The true astronomic zodiac consisting in 22 IAU constellations.
- ★ Rising set of 16 eastern constellations for the current epoch.
- ★ The Night and Day house system with its distinctive “frog leap” planet features.
- ★ Eris publications since August 1<sup>st</sup> 2005. The delineation for all dwarf planets.
- ★ Reality rendering tools in order to avert bad transits and create instant results.

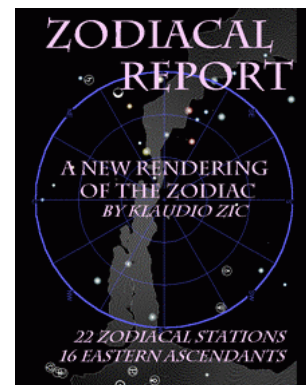

In our work in progress we take care of the astrologer as well as magus since no one has to be doomed to bad astrology since the introduction of the magickal tools for everyone.

❖ During the month of November we worked on the 88 ascendant constellations and of course the 22 basic zodiacal stations in their graphical form. The sigils as we call them will enter a computer program that will in turn enable the incipient astrologer to calculate the true ascendant as well as correct planetary positions as they appear in the real sky. We hope to issue the program within the year of the antichrist with Jupiter still in Ophiuchus and before Venus makes its entrance into Hydra.

❖ On one of our web sites

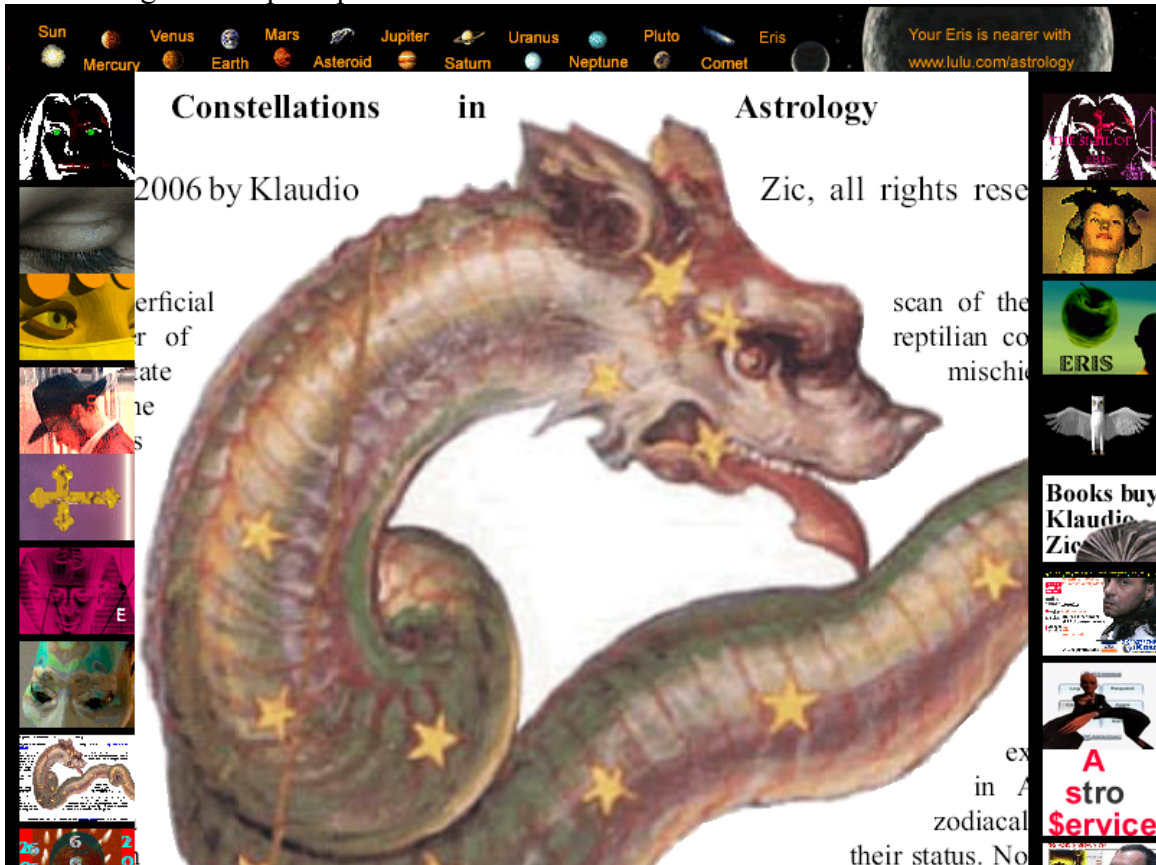

[http://entropy.tmok.com/~tarant81/eris\\_astrology\\_eris](http://entropy.tmok.com/~tarant81/eris_astrology_eris)  
we plan to introduce more zodiacal lessons for the neophyte.

- ❖ Many people asked when is it that Mars enter Cetus or is Venus in Ophiuchus yet. These answers have been partly answered in graphical form. By clicking on the appropriate icons one will have increasing information about Sun in Ophiuchus, Venus in Hydra or Eris in Cetus.
- ❖ Reptilian astrology is given increasing attention since Venus is preparing to enter Hydra. We shall link our work as centered on Cetus, Draco and Serpens in one unit possibly called the Work of Tiamut. In our present effort we try to render the delineation for the most apocalyptic constellations of Auriga, Cassiopeia, Andromeda, Perseus and of course Cetus. As traces of prophecies

blend in a possibly new corpus of knowledge as based on Enuma Elish, Egyptian legacy and the Holy Bible, a new world of constellations reveals parts of a great puzzle.

- ❖ In order to expand our knowledge of the heavenly vault within us we decided to reintroduce the lost constellations like Cerberus. In our future works there will be mention of Cerberus ascending but also of many other lost constellations that help forming the complete picture of HOMO UNIVERSALIS.

- ❖ The web site offers information in a variety of formats that entails:
  - ★ The current position of Eris, the planets and comets. The Apoheles, centaurs and various classes of objects are included with the dwarf planets.
  - ★ Sample predictions for the planet with the apocalyptic years including.
  - ★ A general layout for the Egyptian astrology project.
  - ★ Eris FAQ and information. Eris is our specialty since its first steps in August 2005.
  - ★ Services and catalogs. We are generally best accessed via [www.lulu.com](http://www.lulu.com) internal messaging. People who logged in and send a message received a reply within weeks.
  - ★ Reality rendering tools: The Magick Secretary and Inner Design. . The cosmic secretary and the variety of RTRRT help forming a personal reality completely independent from fate, astrology or bad karma.
